

22 March 1955

Memorandum for: Director of Personnel

Subject: Congressional Correspondence

1. I wish to call your attention to the case of [REDACTED] 25X1A9A which was referred to this Agency by Congressman James G. Fulton under memorandum dated 6 January 1955.

2. Upon receipt of Congressman Fulton's correspondence, I referred the whole matter to Personnel so that they might prepare the material on which a reply to Congressman Fulton could be based. No action was taken on Congressman Fulton's correspondence until the entire file was returned to the office of Legislative Counsel by [REDACTED] Chief, Personnel Procurement under date of 16 March 1955.

3. The possible embarrassment arising out of so lengthy a delay to Congressional correspondence is considerable, and I am, therefore, calling this matter to your attention with the request that in matters of this kind your office supply the necessary material for reply within a five-day period, or if a full reply cannot be prepared within such time that the Legislative Counsel be so informed so that he can make an interim reply to the Congressional office concerned.
